

OAM

The 5th Optics and Measurement International Conference 2023

6th – 8th June 2023

Senohraby, Czech Republic

The aim of the conference is to link the industrial and academic communities specialized in the R&D of optical elements, systems, and measurement methods, and to provide an opportunity for researchers, industry experts, postgraduates, and university students to share their experience and knowledge related to the above-mentioned fields of optics.

RESEARCH CENTRE FOR SPECIAL OPTICS
AND OPTOELECTONIC SYSTEMS
WWW.TOPTEC.EU

Conference Topics

- Space optics
- Imaging systems
- Optical systems and design
- Laser optics
- Optical metrology
- Hyperspectral imaging and spectroscopy
- Optical manufacturing
- Thin films
- Computational imaging
- Special optics
- Fine mechanics

Deadlines

- **15th March 2023** Delivery of abstracts
- **31st March 2023** Announcement of acceptance of papers for publication
- **15th April 2023** Delivery of complete texts of the extended abstracts
- **2nd May 2023** Registration of participants
- **19th May 2023** Payment of the registration fee
- **6th - 8th June 2023** **Date of the conference**

Registration fee

560 EUR (incl. VAT 21%) – We can offer a **special price of 390 EUR** (incl. VAT 21%) to **university students**.

The registration fee covers admission to colloquium sessions and proceedings + refreshments. Payment instructions will be sent following a successful registration.

BEST STUDENT CONTRIBUTION AWARD

To encourage the future generation of R&D experts, the O&M organizing team will designate the winner of the Best Student Contribution Award.
